## About Me.

I am a front end developer specialized in developing web applications using programming languages like TypeScript and frameworks like Next.Js. I am a self-taught person with a great capacity for understanding and communication. My goal is to continue growing as a front end developer and, in the future, also expand my knowledge to develop back-end.

Hi, I'm

# FACUNDO NARANJO

Front End Web Developer

## Projects.

Next.js, TypeScript, Styled Components                2022
**Netflix Clone**

- Netflix clone made from scratch
- The project contains a login function, an unlogged home page and a logged home page
- You can search movies, register, login, watch different trailers on the home page, use trailer control buttons (mute, replay). Each trailer has its corresponding modal where we can see more information about the movie and recommended movies.

**You can find the link of this project in my web portfolio: https://portfolio-naranjo-facundo.vercel.app/**

## Education.

Colegio Jose Ingenieros                2012 - 2017
**Bachelor in economics and administration**

Universidad Nacional De Tres De Febrero        2018 - Incompleto
**Computer Engineering**
In 2018 I began my university career at UNTREF.

Zero To Mastery Academy                2021 - 2022
**The Complete Web Developer In 2022**
In this academy I was able to learn to use most of the most demanded tools in the labor market.

**Different free courses**                2020 - Now
From 2020 onwards I was forming the foundations of my profile as a programmer starting with the basic languages for web development (html, css, javascript).

## Skills.

| HTML | CSS | Styled Components | Tailwind | Jest |
|---|---|---|---|---|
| Bootstrap | JavaScript | TypeScript | React | Linux |
| Redux | Next.js | Node.js | Express.js | Testing Library |
| Firebase | GitHub | Git | PostgreSQL | |
